

Severe Weather and Storm Closures

In the event of **severe weather**, the Guelph Family Health Team will decide to close when normal operations would pose a significant risk to staff and our patients.

This will include the following clinics and programs:

Psychiatry Clinic
Wellness Workshops
INR Clinic
Diabetes Care Guelph
Foot Care Clinic
Chronic Pain Management Program

If you have an appointment scheduled on that day, we will call you the next day that our clinic is open to reschedule your appointment.

If a Wellness Workshop is cancelled due to severe weather, we will notify you by email or phone.

Please check one of the following ways **BEFORE** you leave for your appointment or workshop to find out if the clinic/program is closed:
